The SCR was the unveiling of our 2010 Yenko Camaro, even for the Clary family. Thanks to Greg "The Stickerdude", John who did the renderings, Dennis, Stephano, and others who pitched in to get her to the SCR. And thanks to everyone for their

positive comments.

At the reunion the car still had its stock engine, with no upgrades, in drive and traction control on, ran mid 13s. Sunday morning the car headed back to Nickey to get a 427 engine and other performance upgrades. I cannot wait to play with it then.

As per the project as a whole, the second one is already on the drawing board to be converted, in HO, the match a '69, and several more being discussed.

If you would like to have the "supercar" of your dreams built, contact NickeyChicago for more info. Trust me, they can do it.

Steve and the gang have been busy working on a few goodies for the 2010 Yenkos, including Yenko/SC 427 valve covers and custom ons, such as VCs and headers will carry the sYc assigned serial number of the car they are installed on, such as sYc-1001.

I think Steve is just teasing us by posting those pics, as it is still at his shop.

Nothing like having *both* of our yellow cars immobile! LOL!!

Seriously, good stuff, Stef, and thanks again to you & the gang...
